

When will we learn to stop worrying about the all mighty dollar and start focusing on putting things straight. This is a blatant abuse of power and is corrupt in its delivery. The amount of power that one company has is directly attributed to you, the FCC. It is now your turn to make a turn for the best and stop this injustice that you created. Right or left is not the issue, it is what is correct. Do something correct for a change.

Thank you.
Jeremy Jones
